

Date of Bulletin:	June 15, 2023
Notice #:	CCBFTR02131
Audience:	Carrier, IXC, Wireless, CLEC, Reseller, ISP
Subject:	Shorter Standard Interval Available for Switched Ethernet Orders
Date Effective:	June 15, 2023

We're excited to announce that starting June 15, 2023, **you can request a shorter standard interval for Switched Ethernet orders—without expedite fees!**

That's right! We've implemented a number of improvements to our process and automation which reduced the standard interval you can request on Switched Ethernet New Connect orders from 10 business days, and Change orders from 6 business days, to **as low as 5 business days** without incurring expedite fees.

Please refer to the [Access Standard Provisioning Intervals](#) for a full interval list by service.

If you have questions regarding information in this notice, contact your Frontier Account Manager—we're happy to help.
