Foreign Directory Standalone Listing Job Aid

Foreign Listings Overview

The purpose of this document is to provide information about how Foreign Listings are established on Wholesale accounts.

Foreign listing is defined as:

A directory listing for a telephone number that is **outside** a Frontier service area.

A directory listing for a telephone number that **is within** Frontier service area but is printed in a directory other than the one to which the TN is scoped.

Note: See the *Foreign Listing Examples* section of this document.

The CLEC must have an agreement with Frontier to submit orders in the tariffed area where the book is published. Visit our website for information on getting connected to submit directory orders at [Get Connected for Voice and UNE Services \(frontier.com\)](http://frontier.com).

A Foreign Listing is not entitled to a complimentary Yellow Page Heading. The Yellow Page Heading Verbiage field should be populated with NONE.

A Foreign Listing is available in Directory Assistance. It is critical that a foreign listing includes the community or city. Without the community included in the listing it is virtually impossible for Directory Assistance to locate the foreign listed number. See *Foreign Listings Addresses* in this document.

The Directory Delivery section should be populated when the end user wants a telephone book delivered. A directory will not be delivered when DIRECTORY QUANTITY fields indicate a book is being ordered but the Directory Delivery section is not completed.

The CLEC should populate the MTN field on the DL form with the desired billing telephone number on all directory listing orders. When the desired billing number is a toll free number Frontier will issue a fictitious account number in its place.

Toll Free Numbers

A toll-free number is always considered a Foreign Listing and is not entitled to a complimentary listing. Although not required, a toll-free listing can incorporate listed text that helps the caller correctly dial the telephone number, such as "Toll Free Dial "1" then" or "Dial 1 then."

Go to the *LSR Samples* section for Toll Free number order samples.

Who Owns a Caption?

Frontier assigns an "owner" or primary subscriber to each caption listing. The caption owner is typically the end user or CLEC that ordered the original caption. When a CLEC does not "own" the caption under which they wish to place an indented foreign listing, the ordering CLEC will be billed an MRC for the indented listing and an NRC ordering charge.

Rejections

The foreign listing LSR will be rejected when:

- The Directory Quantity is not zero (0) and the Directory Delivery Section is not

Foreign Directory Standalone Listing Job Aid

completed.

- The LEX must be scoped to the DIRIDL. If it is not scoped to the DIRIDL the RTY must be FML or FAL.
- The MTN should equal the billing telephone number. If it is clear the new listing will be billed to an account that is not owned by the ordering CLEC, reject and request a valid MTN.

Foreign Directory Standalone Listing Job Aid

DL Form Field Entry

This step chart provides a guide to determine how to complete the DL form fields specifically for a Foreign Listing order.

Step	Field	Details
1.	LTN	Enter the foreign telephone or toll-free number that will be printed in the directory. When the number is 911 the DIRIDL and TOA fields are required.
2.	LEX	Enter the npanxx of a local number that is scoped to the requested directory. A valid npanxx can be found on the Directory Scoping Sheet .
3.	DIRIDL	Enter the six-digit code of the directory in which the listing should appear.
4.	RTY	FML – Foreign Main Listing FAL - Foreign Additional Listing See Record Type for more details.
5.	MTN	Will this number be billed to another number already established in DPI? If yes, enter it here If no, enter the LTN in this field. Note: When a fictitious account is created for a foreign listing it becomes the MTN. The CLEC will not know what the new MTN is until after the order is written.
6.	STYC	Choose SL – Straight line listing CI - Caption Indent

Record Type

A standalone foreign directory listing, whether main or additional, is a chargeable item. Each listing requires a Record Type on the DL form. The first character of a Foreign Listing is always F. The second two characters can be ML for Main Listing or AL for Additional Listing.

The CLEC should check the Publisher and Book Look Up Table to see if the telephone number they want listed is scoped to be printed in one of Frontier's books. If the NPANXX is not scoped to the desired directory, then the listing is considered foreign (see **NOTE** below.) All toll-free numbers and N11 (911, 511, etc.) are considered foreign listings.

Use this chart to help determine the correct Record Type for your straight-line listing order:

When the Foreign telephone number is...	Then the RTY is...
CLEC's initial order for the foreign listing in a particular book	FML
CLEC's subsequent order for an existing foreign listing in the same book	FAL
CLEC's subsequent order for an existing foreign listing in a different book. This may or may not result in a separately billed account.	FAL

Use this chart to help determine the correct Record Type for your caption indent listing order:

When the Foreign telephone number is...	Then the RTY is...
Initial order for the first foreign telephone number in a caption	FML
Initial order for indented foreign listings within a caption, other than the main listing	FAL
Subsequent order for a foreign TN to be the first or an indented listing when there are already listings for the same number(s.) This may or may not result in a separately billed account.	FAL

Note: Frontier regularly verifies that CLE- owned local NPANXXs are scoped to appropriate Frontier directories. Contact Frontier's Local Carrier Services Support when your NPANXX is local and should be included in the scoping matrix.

LSR Samples

Introduction

The chart below shows the field entries to establish a Standalone Directory Listing for a toll free number in the Wheeling WV directory for the Red Cross Blood Center that is located in a neighboring community. Frontier does not supply local service to St Clairsville, nor does it scope the St Clairsville NPANXXs into the Wheeling directory.

Red Cross Blood Center St. Clairsville
Toll Free Dial 1 then800 546-1000

A JB-N order is submitted to establish a Foreign Listing. Frontier will create an account using a fictitious number. In this example, a straight line listing for the toll free number is established. A telephone book will be sent to the end user at the Directory Delivery Address in St Clairsville, OH.

The following chart shows how to populate the LSR.

Foreign Directory Standalone Listing Job Aid

Local and Foreign Book

To list a local telephone number in a foreign directory a primary listing is established for the number in its designated directory. An additional “foreign” listing is ordered to place the listing in a foreign book.

The example here is for a listing for a New Martinsville number and a foreign listing for the number in the Wheeling book. The New Martinsville NPANXX is not scoped to the Wheeling directory.

New Martinsville Directory 078580

Holiday Inn 123 First Ave New Martinsville 304 451-9100

Wheeling Directory 078920

Holiday Inn New Martinsville.....304 451-9100

Foreign Listing in Caption

Placing an order for a foreign listing within a caption listing will depend largely upon whether the caption already exists, and who “owns” the caption (see *Who Owns the Caption?*)

In this example the CLEC is requesting that 304/405-4655 is listed as “After Hours” in the existing caption for ABC Rental. The listing should be at a degree of indent 2, and placed after East Side Storage. The ABC Rental caption is positioned on account 304/455-5333 which is owned by a Frontier retail end user.
