<b>Date of Bulletin:</b>	July 18, 2024
<b>Notice #:</b>	CCBFTR02240
<b>Audience:</b>	Carrier, IXC, Wireless, CLEC, Reseller, ISP
<b>Subject:</b>	400G Wavelength Services Now Available
<b>Date Effective:</b>	Immediately

---

Frontier now offers Wavelength Service speeds up to 400G. Wholesale customers can extend their high-bandwidth offerings with faster speeds using Frontier's fiber footprint to connect key data centers and access points. Here's what you can do with 400G:

- Build your business with scalable bandwidth
- Improve network resiliency with diverse routes and secure, point-to-point service
- Benefit from low-latency connections at the edge

**This service is available immediately to Wholesale customers who have executed an applicable amendment to their contract with Frontier.**

For more information about this notice, please contact your Frontier Account Manager.
